Rev. J. T. McClure, the financial agent interest.

Rev. J. T. McClure, the financial agent of the Presbytery, presented an interesting and satisfactory report for the year past. Dr. McClure also called the attention of the Presbytery to certain localities in Ohio county, W. Va., which are entirely destitute of church organization. The consideration of the duty of the Presbytery was referred to the Committee on Supplies for a report.

The request of Mr. J. A. Anderson, to be taken under the care of the Presbytery as a student of theology, was referred to the committee baving care of the education of young men for the ministry.

A request from the congregation of Egypt, for preaching one-third of the time by Rev. Love, was referred to Committee on Supplies.

AFTERNOON SESSION.

AFTERNOON SESSION.

Presbytery resumed business.

The Clerk of the Presbytery resigned.

The time of electing a Clerk was changed from the fall meeting to the regular spring meeting. It was resolved that the term of office should be four years hereafter, and that the Clerk should be allowed a reasonable compensation for expenses incurred in the discharge of his official duty. Rev. Wm. Weir, of Martin's Ferry, was then elected Clerk for the term of four years, beginning with this meeting.

tions: During the ten years of the exiting tariff the united wool industry of the country has made progress unequaled in any former decade. An essential feature of this progress has been the material cheapening of fabrics effected by improvements and domestic competition. Welther the industries effected nor the general public demand a change, much general public demand a change, much life the radical change proposed by the bill. This bill completely destroys an important feature of the existing tariff, an anely, the classification of wools according to character, a classification of which is now adopted by the leading commercial countries. It makes the rade depend wholly on value, causing the rade to be too high on some classes and too low on others. It makes, with all the state of the manufacture of many of the important fabrics. There would necessarily be an extended illigation before a construction of the law could be established by the department and the courts. These rill would be aggravated by competition from European manufacturers, who are now anticipating an outlet for their surplus products in consequence of the greatly reduced rates proposed by the bill. The association recommend the prompt defeat of the bill, and there can be little doubt that after Wood's speech an attempt will be made to strike out the enacting clause.

The philosophy, the theory, is a sealed book to Republican newspapers and Republican politicians. Conkling means Grant. He would be a fool if he dreamed of himself. Blaine means Grant—because he is a sagacious, sensible and unmaligiant man. It will all result in Grant against a divided Democracy, with some likelihoods. These things the Democrats ought to consider. They ought to consider them along with their conceit that we are masters of the situation. We are not. WASHINGTON, April 9.—The report of the special Commission on Railway Mail Transportation was presented to both Houses of Congress to-day. It is signed by Daniel M. Fox and George A. Bassett, Postal Commission, who recommend space and speed instead of weight as the basis of compensation, reserving the purivileges contended for by the Postoffice Department and giving to the public better mail facilities than ever before. The expenditures under the rates recommended will not be materially increased over those of the present year. The labled returns show a variation of from 283 to 104 mills in the operating expenses per lineal foot of train, while the receipts range from 364 to 1,096 mills, showing that the profit on some roads, where the rates are low, is larger than on other roads where the rates are high, and therefore the adoption of an average rate perefore the adoption of an average rate pplicable to all lines that would give

NEW

The market was not accused any time, as less were effected with some difficulty during most of the time. Prices 3a5%c.
MILCHI COWS—The trade in Milch Cows is very dull, and prices are lower. We quote them as to quality at \$25a40 per head at retail.

Priors have been well maintained at former quotations, as they ruled early last week. The demand has only been moderate. The supply is fully up to the demand, at the close this afternoon a few Hogs being left in the pens. The quality is scarcely up to the average of that of last week, Prices 5a5% cents net.

REMARKS.

The trade in most of the pens that have received Sheep has been fairly active, particularly for those of a good grade. There is a marked increase in the number of the receips, and the quality is fully equal to that of the receips of last week. Good Lambs have been in good demand. We quote sheep at 485 cents for sheared, and wool Sheep 585% cents. Lambs 739 cents per pound, gross.
